PROFILE

Creative and detail-oriented UI/UX designer and software engineer with a HND in Software Engineering, committed to delivering exceptional user experiences. I am seeking a challenging role that leverages my skills in both UI/UX design and software development to contribute to innovative projects and achieve business objectives.

STUDY EXPERIENCE

UI/UX Designer

- Conducted user research to understand target audience and user needs.
- Created wireframes, prototypes, and high-fidelity designs for web and mobile applications.
- Collaborated with cross-functional teams to ensure seamless integration of design and development processes.
- Conducted usability testing and gathered feedback for iterative design improvements.

Software Engineer

Front-end Development:

- Developed and maintained front-end components using HTML, CSS, and JavaScript..
- Collaborated with UX/UI designers to implement visually appealing and intuitive designs.

Back-end Development:

- Assisted in the development of RESTful APIs using Node.js, enhancing the application's scalability.
- Implemented server-side logic, data models, and database interactions.
